Approved For Release 2000/08/23: CIA-RDP62S00231A000100060060-2

Chief, Intelligence Information Staff, ORR

21 February 195

THRU :

25X1A9a

Chief, Industrial Division, CRR Chief, Military Economics Branch, D/I

Requirement

25X1A2g

In answer to your impriry, the indicated requirement should be reissued as the information requested is of importance. To date no answer has been received as a result of the original insuance.

It is suggested that the requirement be recast in the manner set forth below, if feasible. This would replace the entire set of questions in the original.

As with the original, these questions have been coordinated with I/VA.

It is requested that the following questions be addressed to the source of the referenced report. These questions should be directed to both intra-bloc arms transactions and to transactions between Soviet bloc nations and other nations (e.g., Egypg and Syria).

1. Prices.

- a. How are prices established?
- (1) Do prices cover fixed and variable (directindirect) costs, including profits and depreciation?
- (2) What allowances (e.g., rates of depreciation) are made for old and/or used equipment?
- (3) What function does the USSE play in establishing these prices (when they are a participant in the given transaction and when they are not)?
- (4) How are transportation and insurance costs for arms chipments determined?
- b. Indicate any prices known for military equipment. For each price define the item as follows:
 - (1) its nomenclature
 - (2) its condition

SELECT: Requirement 25X1A2g

(3) whether spares and/or summitten are included and to what extent.

The year(s) in which the cited price was applicable should be noted as should any changes in the prices for a given piece of equipment over time.

- 2. What are the usual contract terms?
 - a. What exchange rates are applicable!
 - b. What are the nears of payment?
- e. What the period is generally allowed for the certified of an account for any given transaction? Where credit is involved what are the usual terms? Is the credit ever provided by a third party?
- 3. Are passents for the import of arms budgeted? If so, under what amounted budgetery secount(s) are these funds located? If not so located (in whole or in part) describe the sources of these funds.
- 4. What budgetery accounts, if any, are credited with revenue from the cale of most
- 5. What has been the value of imports and exports of arms, by country, on an animal basis since 1950? Specify, to the extent possible, the physical quantities of equipment, assumition, etc. by type underlying these transactions.
